**Port of  
Antwerp**

# Thuishaven als hefboom voor een **duurzame toekomst**

Missie

# Het Havenbedrijf

*Voortrekker in vier rollen*

Drijvende kracht voor Port of Antwerp  
met oog voor dagelijkse werking

Regulator

Operator

Landlord

Community builder

**Duurzame groei**

**Doelgerichte transitie**

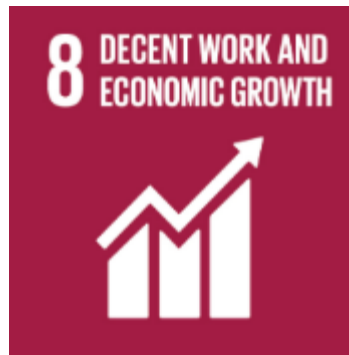

**Veerkrachtige haven**

**3 strategische  
prioriteiten**

in line with the  
**Sustainable Development Goals**

# Port of Antwerp DNA

## Unieke synergie

Cargo handling

Logistics

Industry

# Lighthouse projects

3 focus domeinen

## Duurzame energie

### Onshore wind production

Expanding capacity in the port

### Hydrogen Coalition

Strong partnership assessing feasible H<sub>2</sub> import cases

### Steam & Waste heat

Backbones to provide the port industry and the city with steam and waste heat

## Duurzame industrie

### NextGen District

Reconversion of a strategic area towards sustainable and circular industry

### Antwerp@C

CO<sub>2</sub> capture, transport and storage of CO<sub>2</sub>

### Zero pellet loss & plastic trap

Partnership between industry, logistics and transport to prevent plastics polluting the environment; innovative solution to remove plastics

## Duurzame scheepvaart

### Multi Fuel Port

Action Plan to integrate alternative fuels (LNG, methanol, H<sub>2</sub>, electricity) in our bunker market

### On shore power

for barges and sea-going vessels

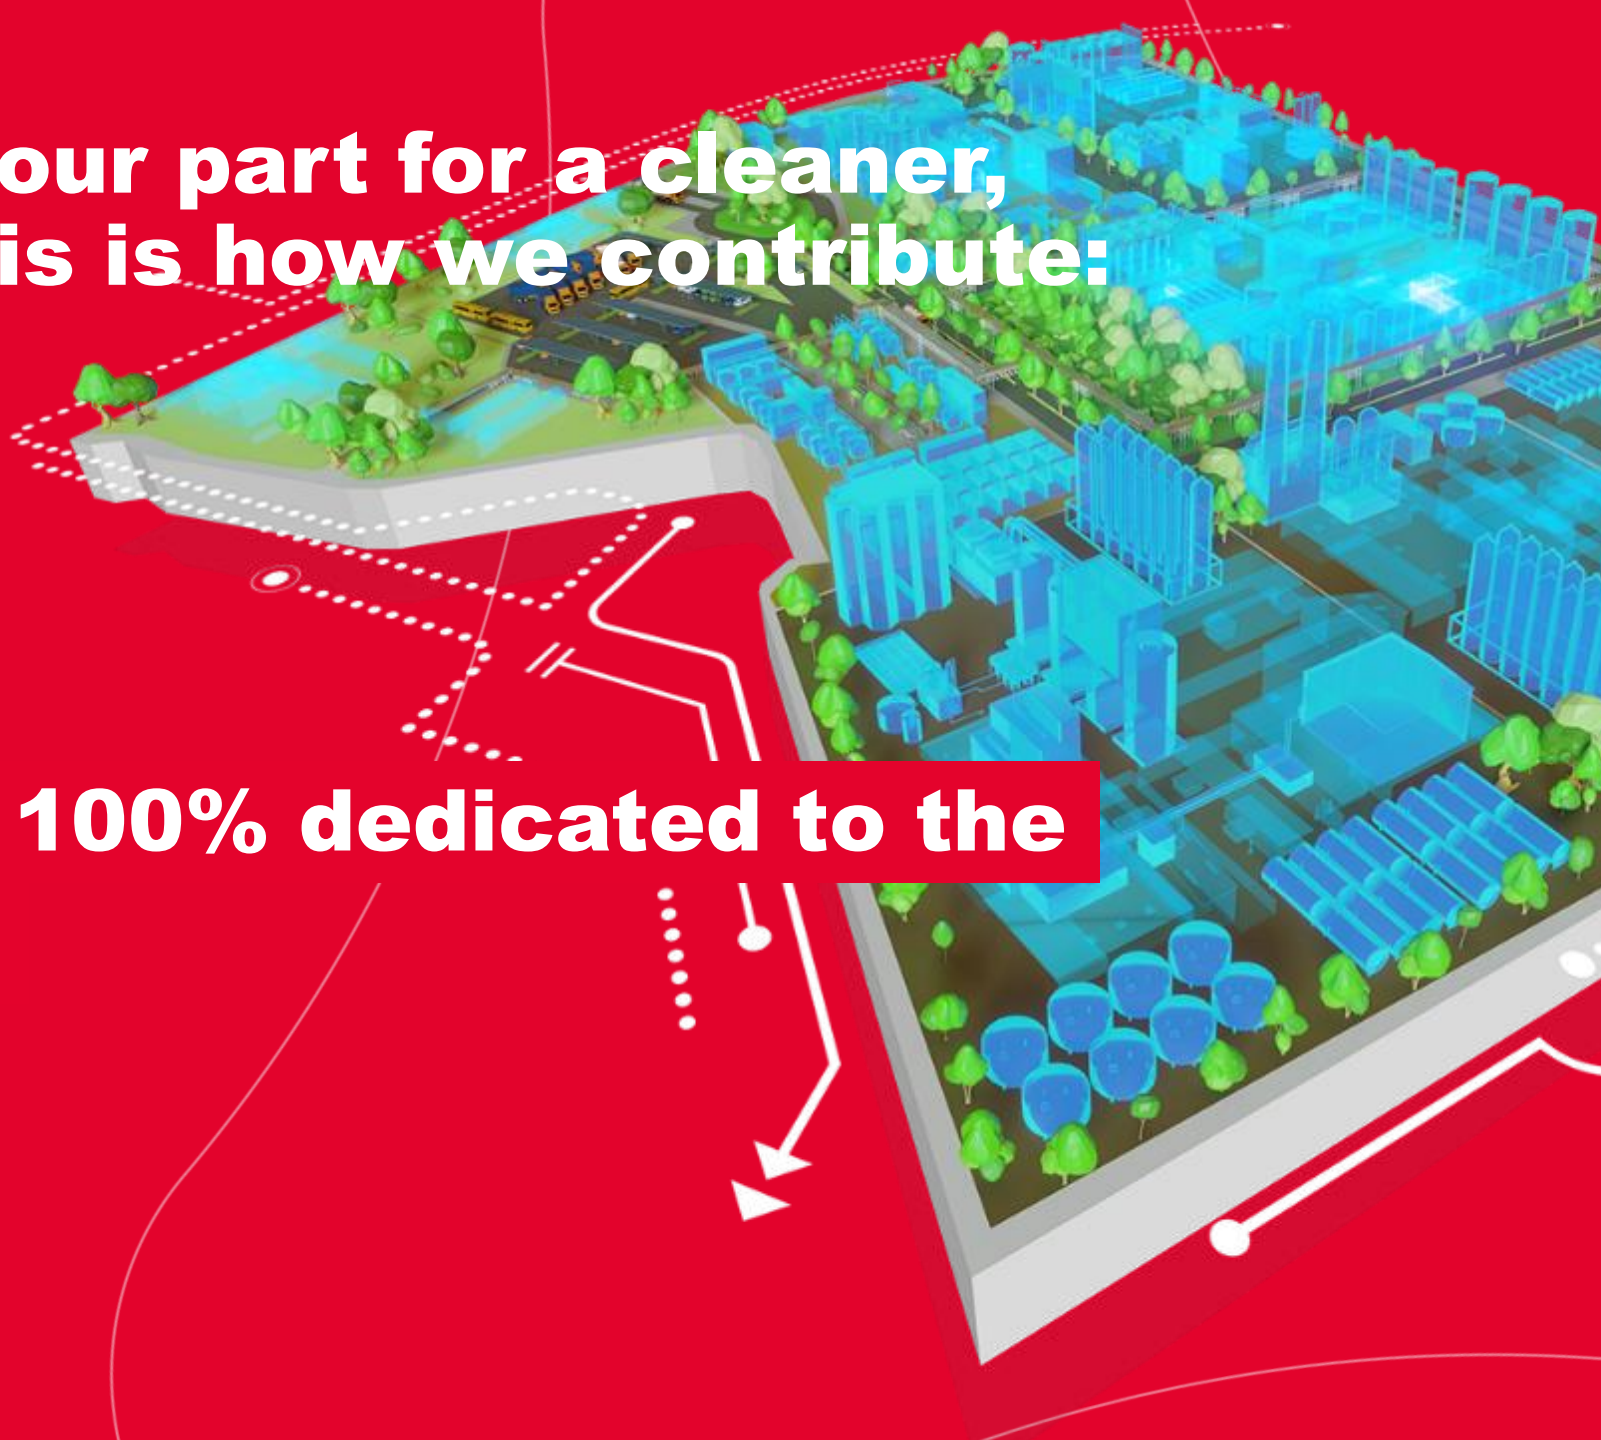

### Tugboats on H<sub>2</sub> & methanol

Integration of alternative fuels in our own fleet

**We all need to do our part for a cleaner,  
greener world. This is how we contribute:**

## **NextGen District**

**An entire district, 100% dedicated to the  
circular economy.**

# Met een focus op:

PROCESS INDUSTRIE

CO<sub>2</sub>

Bio-based activities

Mechanical & chemical recycling plastics

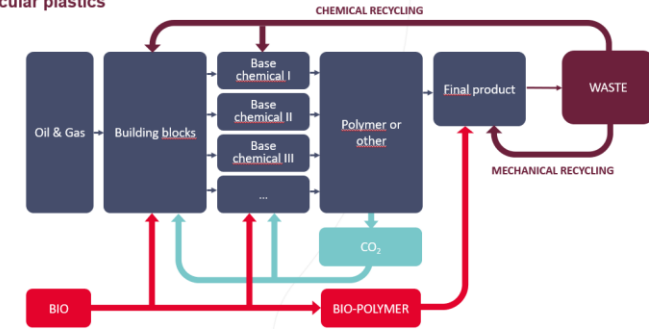

MAAKINDUSTRIE

Energy transition

## Process industry

Circular plastics
